N PRESENTING THIS CATALOGUE, . . .

We ask your careful examination of the many new designs shown. It is our constant aim to build work of a standard and reliable quality, which is proven by the diploma and medals we have received, and are shown on following pages. Our carriages as well as our King springs are well and favorably known all over the world, and need no further recommendation to our customers. From those who have never used our goods we solicit a trial order.
